

JPMORGAN CHASE & CO.

Bring your technological edge to a firm that invests billions in innovation.

Launch your career with our Tech Connect Program

Millisecond trading capability. Billion-dollar infrastructure. Leading edge software and infrastructure engineering. Our global team of over 40,000 technologists creates the technical innovations that will fuel our firm's future – and yours. We need the brightest minds and diverse perspectives to fuel that growth.

Maybe you're familiar with coding or maybe you're not. Either way, we want your fresh perspective and innovative thinking. That's why we are supporting motivated students via our Tech Connect program to become part of our Technology business.

Make Tomorrow Together.

Tech Connect* provides specialized Java training and career development for under-represented technology talent interested in driving innovation through technology.

Are you:

- An MIS, Science or Math major graduating December 2017 or Spring 2018 with a GPA of 3.2?
- A quick learner with a desire to solve problems?
- Interested in technology and want to build your coding skills?

You'll learn to read, write and understand basic Java, using it to create websites, develop apps and test programs. You'll receive support and coaching from senior business leaders as you develop your skills and build your professional network.

After completing Boot Camp training, we'll welcome you into our unique experiential learning program, Force for Good, where you'll be placed on agile project teams to develop real world solutions for actual Social Good clients.

If you do not qualify for this particular program we encourage you to apply to us through our other programs. Please visit our website for more details.

*All candidates must have authorization to work permanently in the U.S.A.
